My dear Garrison

I find you here
with a report of Mr.
Mitchell, giving an ac-
count of the Normal
schools established by
the English money lent
over for that purpose,
with some letters from
teachers illustrating
the operation and
results of these schools.
I think you will read
both the report & letters

1. The first part of the paper
describes the general principles
of the method. It is divided
into two sections. The first
section deals with the theory
of the method, and the second
section deals with the practice
of the method. The theory
section is divided into three
parts. The first part deals
with the general principles of
the method, the second part
deals with the principles of
the method, and the third part
deals with the principles of
the method. The practice
section is divided into two
parts. The first part deals
with the principles of the
method, and the second part
deals with the principles of
the method.

with pleasure.

Please write me
what you think of
them. If your letter
should contain any-
thing likely to do good
in the forthcoming
number of the Ameri-
can Freedman I
shall feel free to
quote from it.

We are all well
here, & trust that you
are all the same.

Yours

Wm. L. Chapin
